URINAL CONTROLS

battery operated

Hydrocell 2006 including valve - Urinal Controller

Typically saves 60% on water charges and pays for itself within three months.
 Features include; Occupancy detection, Battery operated, Small and discrete, variable fill and flush settings. Complete with Controller, Battery and Solenoid Valve. Hydrocell Ultra additional features; Fail safe operation, Low battery indication, Thermostatic control, Intelligent Flushing options.

Code	Description	Price RRP
AQUHC	Hydrocell 2006 including valve	€148.50
AQUHCU	Hydrocell Ultra including valve	€205.50

Anti-Vandal Hydrocell 2006 including valve - Urinal Controller

All the efficiency of the Hydrocell 2006 encased in a stylish stainless steel body that offers robust anti-vandal and anti-corrosive protection. The unit is supplied with knockouts for ease of installation.

Code	Description	Price RRP
AQUHCAV	Anti-Vandal Hydrocell in stainless steel case, including valve	€215.50

Aquamate Timed Urinal Controller

Cost Effective Urinal Solution.
 This product can be utilised alongside the Sani Sleeve and will maintain the correct flushing regime to maximise savings. Simple Plug & Play operation. Complete with Controller, Battery and 15mm Solenoid Valve.

Code	Description	Price RRP
AQUAM	Aquamate Timed Urinal Controller	€98.00

mains operated

Hydromate 2000 including valve - Urinal Controller

Typically saves 60% on water charges and pays for itself within three months.
 Features include; Occupancy detection, Mains operated, Small and discrete, Variable fill and flush settings. Complete with Controller and Solenoid Valve.

Code	Description	Price RRP
AQUHM	Hydromate 2000 including valve	€180.00
AQUHMPC	Photocell control box - for areas with ambient light	€15.50

infrared sensor

Sensao Electronic Urinal Control

Contemporary Urinal Solution.
 This is a concealed self-adapting wall mounted urinal flush controller that can enable significant water savings. The device has 4 programmes with or without pre-wash, short or long rinsing and cleaning function for use on direct feed urinals. Available in chrome or ivory.

Code	Description	Price RRP
AQU55332	Sensao 6v Electronic Urinal Control - Chrome finish	€595.00
AQU55333	Sensao 6v Electronic Urinal Control - Ivory finish	€595.00

Standard Sensao Electronic Urinal Control

For standard urinal or stall- rear inlet.
Exposed wall mounted self-adaptive electronic flush for direct feed urinals or ordinary urinals with power supply by 6V lithium battery

Code	Description	Price RRP
AQU55350	Sensao 6v Electronic Urinal Control	€515.50

Sensao Electronic Urinal Control- Exposed

Preset programmes to suit different needs
Self adapting sensor to any environment with a new patented intelligent active infra red detection system. Vandal proof design- suitable for all types of environments, with top inlet and white epoxy finish. Security and hygiene- automatic shut off in case of battery discharge, battery housing (IP65) integrated. For use on direct feed.

Code	Description	Price RRP
AQU5300	Sensao Electronic Urinal Control- exposed pipework	€695.00

Urinal Timed Tap

This tap is suitable for high frequency usage. Anti- vandal proof design can withstand high impact. Water saving - flow adjustable to 4 different settings, flow duration 6 secs (+- 2s) . Min operating pressure 0.8 bar, Max 5 bar. Suitable for direct feed.

Code	Description	Price RRP
AQU31003	Presto exposed urinal push tap	€63.50
AQUABV	Airbreak valve (Chromed) - prevents back flow into water supply.	€37.85

Sani Sleeve refill

Can cut water bills by 96%. Improves Hygiene, Saves Water and Reduces Blockages. Safe microbiological cleaning formula. Suitable for use in conjunction with The Aquamate (AQUAM)

Code	Description	Price RRP
AQUSSR	Sani Sleeve refill	€40.00
AQUSSE	Sani Sleeve Unit (Exposed Bowl) Including waste outlet adaptor	€44.60
AQUSSC	Sani Sleeve Unit (Concealed Bowl) Including waste outlet adaptor	€44.60

Biological Channel Blocks

Bio Blocks contain biological enzymes to digest urine crystals and a perfume to provide a pleasant fragrance in the washroom and unlike other urinal blocks do not contain pDCB.

Code	Description	Price RRP
AQHBB1	Biological Channel Blocks - 50 off	€25.40

TAPS & TAP AERATORS

self closing push tap

Retrofit Push Tap

The only brass tap conversion on the market, Stylish classic design - will suit most washrooms. Quick and easy to install - no need to remove existing tap base, Rigorously tested under all conditions, Durable - made to last under high usage situations. Will fit most UK and European taps. Very wide range of user defined time settings. Saving Money & Water from Day one.

Code	Description	Price RRP
AQTPT	Retrofit Push Tap - STANDARD 1/2" (Includes BS1010 adapter)	€29.70
AQTPT18	Retrofit Push Tap 18 TPI	€29.70
AQTPTC	Complete Push Tap including base	€42.50
AQTPTA	Complete Push Tap including base and Aerator	€58.99

sequential taps

Contemporary Lever Spray Mixer Tap

The AQT985CP is a single lever sequential spray mixer tap that will provide a spray of water, giving cold to hot with 180 degree of movement of the lever handle via a ceramic disc cartridge. This contemporary design delivers 3.6 lpm at a pressure of 0.5 bar. For pressures under 0.5 bar the limiter insert may need to be removed to effect a suitable spray pattern.

Code	Description	Price RRP
AQT985CP	Contemporary Sequential lever mixer tap	€147.50

Lever Spray Mixer Tap

This WRAS Approved sequential tap is ideal for use in washroom areas where safety control is important. Suitable for use with 'Doc M' installations, schools, sports and leisure centres and other unsupervised areas. The simple operation of the tap makes it ideal for users with reduced mobility. Two flexible hoses included, Extended lever option, Patented second flow, limiter, Chrome finish.

Code	Description	Price RRP
AQT980CP	Sequential lever mixer tap	€115.25

touch operated taps

Perfect Time 6v Touch Tap

This touch tap uses piezo technology and will start when user touches top cap. Water will stop automatically at end of users programmed time. (Easily adjustable flow time) Operates from 9v battery control unit. Can be supplied with M24 flow regulator/aerator.

Code	Description	Price RRP
AQETIR162	Perfect Time 9v Touch Tap	€230.50

Squale Basin mount Electronic Tap - mains or battery operated

This electronic (Infrared) tap has 4 pre-defined programmes and 2 functions which can be activated using a simple reflector without disassembling the tap and which enables the tap to adapt to each type of use. Manufactured in Europe to the highest standards to exceed today's demanding environments. All electrical components meet IP65 testing requirements to ensure lifelong reliability

Code	Description	Price RRP
AQET55110	Squale basin mount mixer tap - 230v	€574.50
AQET55115	Squale basin mount mixer tap - 6v Battery	€574.50
AQET55010	Squale basin mount single tap - 230v	€514.25
AQET55015	Squale basin mount single tap - 6v Battery	€514.25

Sensao 6100 Wall mount Single Electronic Tap -battery or mains operated

This electronic (Infrared) tap has 4 pre-defined programmes and 2 functions which can be activated using a simple reflector without disassembling the tap and which enables the tap to adapt to each type of use. Manufactured in Europe to the highest standards to exceed today's demanding environments. All electrical components meet IP65 testing requirements to ensure lifelong reliability

Code	Description	Price RRP
AQET55410M	Sensao wall mount single tap - short spout - 230v	€396.60
AQET55410B	Sensao wall mount single tap - short spout - 6v Battery	€445.85
AQET55411M	Sensao wall mount single tap - std spout - 230v	€396.60
AQET55411B	Sensao wall mount single tap - std spout - 6v Battery	€445.85
AQET55412M	Sensao wall mount single tap - long spout - 230v	€420.50
AQET55412B	Sensao wall mount single tap - long spout - 6v Battery	€471.45

Sensao 6000 Deck mount Single Electronic Tap - mains or battery operated

This electronic (Infrared) tap has 4 pre-defined programmes and 2 functions which can be activated using a simple reflector without disassembling the tap and which enables the tap to adapt to each type of use. Manufactured in Europe to the highest standards to exceed today's demanding environments. All electrical components meet IP65 testing requirements to ensure lifelong reliability

Code	Description	Price RRP
AQET55400M	Sensao deck mount single tap - short spout - 230v	€398.00
AQET55400B	Sensao deck mount single tap - short spout - 6v battery	€448.00
AQET55401M	Sensao deck mount single tap - std spout - 230v	€398.00
AQET55401B	Sensao deck mount single tap - std spout - 6v battery	€448.00
AQET55402M	Sensao deck mount single tap - high spout - 230v	€420.50
AQET55402B	Sensao deck mount single tap - high spout - 6v battery	€470.50

Volta Electronic Tap - mains or battery operated

This is the smaller version of the 'Squale' electronic (Infrared) tap and can be activated using a simple reflector without disassembling the tap and which enables the tap to adapt to each type of use. Manufactured in Europe to the highest standards to exceed today's demanding environments. All electrical components meet IP65 testing requirements to ensure lifelong reliability. 6plm aerator included. The mixer version is available with or without temperature adjustment lever.

Code	Description	Price RRP
AQET55051	Volta deck mount single tap - 230v	€430.00
AQET55060	Volta deck mount single tap - 6v Battery (without PEX hoses)	€395.50
AQET55062	Volta deck mount single tap - 6v Battery	€430.00
AQET55152	Volta deck mount mixer tap - 230v (with lever)	€563.50
AQET55162	Volta deck mount mixer tap - 6v Battery (with lever)	€563.50

High Spout Deck mount mixer Tap - Presto 5750

High spout swivel enables filling applications or sterilising filter cartridges for hospital environments Infrared sensor, powered by 4 x 1.5v batteries in IP65 case. Features include temperature limiter, flow regulator, non-return and filter stop valves, stainless steel flexi hoses.

Code	Description	Price RRP
AQET52102	High spout deck mount mixer tap - 1.5v Battery	€1,085.00

Sensao 5200 wall mount exposed single tap - with integrated 6v battery

This electronic (Infrared) tap has 4 pre-defined programmes and 2 functions which can be activated using a simple reflector without disassembling the tap and which enables the tap to adapt to each type of use. Manufactured in Europe to the highest standards to exceed today's demanding environments. All electrical components meet IP65 testing requirements to ensure lifelong reliability

Code	Description	Price RRP
AQET55220	Sensao wall mount exposed single tap - std spout - 6v battery - White	€853.65
AQET55225	Sensao wall mount exposed single tap - high spout - 6v battery - White	€885.75
AQET55230	Sensao wall mount exposed single tap - std spout - 6v battery - Chrome	€847.65
AQET55235	Sensao wall mount exposed single tap - high spout - 6v battery - Chrome	€882.75

Sensao wall mount concealed single tap - with integrated 6v battery supply

This electronic (Infrared) tap has 4 pre-defined programmes and 2 functions which can be activated using a simple reflector without disassembling the tap and which enables the tap to adapt to each type of use. Manufactured in Europe to the highest standards to exceed today's demanding environments. All electrical components meet IP65 testing requirements to ensure lifelong reliability

Code	Description	Price RRP
AQET55334	Sensao wall mount concealed single tap - std spout - 6v battery - White	€612.00
AQET55338	Sensao wall mount concealed single tap - high spout - 6v battery - White	€675.00
AQET55336	Sensao wall mount concealed single tap - std spout - 6v battery - Chrome	€559.00
AQET55340	Sensao wall mount concealed single tap - high spout - 6v battery - Chrome	€628.50

aerated & regulated tap inserts

Pressure Compensating Aerator Tom Thumb M16 Female 5L/min Aerated flow

Anti-liming "honeycomb" replaces conventional wire mesh screens prone to lime build up. Integral anti-clogging dome screen filters sediment and particles. Colour-coded dome screen to identify flow rate. Patented design provides a splash-free stream, well aerated and soft to the touch. Flow rate V designed for pressures as low as 0.2 bar.

Code	Description	Price RRP
AQT15627	Pressure Compensating Aerator M16 Female 5L/min Aerated flow	€7.00

Pressure Compensating Spray 2.5L/min

In low flow conditions where aerators and laminar devices would not perform properly, sprays provide full coverage of the hands during washing. The use of sprays is recommended on lavatories in public restrooms to reduce water consumption.

Code	Description	Price RRP
AQT59144	Pressure Compensating Spray M22 Female 2.5L/min	€7.00
AQT59244	Pressure Compensating Spray M24 Male 2.5L/min	€7.00

Pressure Compensating Aerator 5L/min Aerated flow

The high tech aerator. Unique single piece screenless design inhibits lime build up. Integral anti-clogging dome screen filters sediment and particles. Colour-coded dome screen to identify flow rate. Patented design provides a splash-free stream, well aerated and soft to the touch.

Code	Description	Price RRP
AQT54242	Pressure Compensating Aerator M22 Female 5L/min Aerated flow	€7.00
AQT54442	Pressure Compensating Aerator M24 Male 5L/min Aerated flow	€7.00

Pressure Compensating Aerator 8L/min Aerated flow

The high tech aerator. Unique single piece screenless design inhibits lime build up. Integral anti-clogging dome screen filters sediment and particles. Colour-coded dome screen to identify flow rate. Patented design provides a splash-free stream, well aerated and soft to the touch.

Code	Description	Price RRP
AQT54246	Pressure Compensating Aerator M22 Female 8L/min Aerated flow	€7.00
AQT54446	Pressure Compensating Aerator M24 Male 8L/min Aerated flow	€7.00

SHOWERS

wall mounted showers

Aerated Anti Vandal Shower Head Rear Entry

Aerated water provides a luxurious foaming shower. No compromise high quality construction. Stylish chrome design. Particularly well suited to changing areas.

Code	Description	Price RRP
AQS250	Aerated Anti Vandal Shower Head Rear Entry	€125.75

Aerated Anti Vandal Shower Head Bottom Entry

Aerated water provides a luxurious foaming shower. No compromise high quality construction. Stylish chrome design. Particularly well suited to changing areas.

Code	Description	Price RRP
AQS255B	Aerated Anti Vandal Shower Head Bottom Entry	€125.75

Aerated Shower Head

Stylish functional design swivel shower head. Aerated water provides a luxurious foaming shower. No compromise high quality construction. Simple retro fit design save on install costs.

Cuts water and energy consumption by up to 60%

Code	Description	Price RRP
AQS260	Aerated Shower Head	€62.15

Aeroflo Shower Head

Aerated shower head, Multi directional aerated shower head, Suitable for any application. Simple non disruptive installation. **Cuts water and energy consumption by up to 60%**

Code	Description	Price RRP
AQS300	Aerated Shower Head	€31.85

Aeroflo Shower Head Including Back Plate

Bottom entry wall mounted shower head, Multi directional aerated shower head. Available as air8 shower head only (AQS300), Suitable for any application. This price includes backplate. **Cuts water and energy consumption by up to 60%**

Code	Description	Price RRP
AQS301	Aerated Shower Head Including Back Plate	€62.15

Massage Shower Head

Adjustable spray pattern, 8 litres/minute flow rate, Proven USA design, millions sold worldwide. Simply replace existing shower head in minutes, Handheld version available.

Cuts water and energy consumption by up to 60%

Code	Description	Price RRP
AQS310	Massage Shower Head	€29.50

Motion Flo Shower Head

Cutting edge design from California design house, Increases velocity of the water, Simple Installation, Suitable for any application, Huge energy saving benefits. Produces an invigorating showering experience. **Cuts water and energy consumption by up to 60%**

Code	Description	Price RRP
AQS302	Aerated Shower Head	€31.85

DL 800 S Thermostatic Shower Panel

Available with top or back inlet. Anti-Liming shower head, "soft trigger" push button control with **pre-set timed flow**. Robust **anti-vandal** ABS resin design with anti-scald security. 1 to 5 bar operating pressure with anti-liming and anti-corrosion mechanism. Supplied with **10 lpm regulator**.
Anti-Blocking System - Ensures shower cannot be left / jammed on.

Code	Description	Price RRP
AQS27812	DL 800 S shower panel with soap dish -back inlet	€756.50
AQS27800	DL 800 S shower panel with soap dish -top inlet	€756.50

handheld showers

Air8 Easy Clean Handheld

Easy clean anti-liming fascia, Universal fitting shower head, High quality, Simple Installation, Suitable for any application, Save on installation costs, Huge energy saving benefits.

	Description	Price RRP
AQS1101C	Air 8 Easy Clean Handheld Chrome	€34.85
AQS1101CR	Air 8 Easy Clean Handheld Chrome, with Restrictor instead of Aerator	€20.95
AQS1101W	Air 8 Easy Clean Handheld White	€34.85
AQS1101WR	Air 8 Easy Clean Handheld White, with Restrictor instead of Aerator	€20.95

Satinjet - Awatea shower kit

Push button spray control, easy clean face plate, 1500mm twist free hose, long rail, high quality, simple Installation, Suitable for any application, Save on installation costs, Huge energy saving benefits.
Can reduce water and energy consumption.

Code	Description	Price RRP
AQSSJ	Satinjet Awatea Hand Held Shower	€108.95
AQSSJ	Sanijet Awatea Hand Held Shower Kit	€108.95

shower accessories

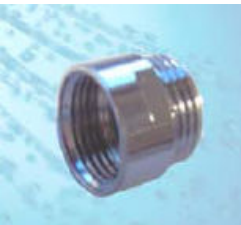

Non-Concussive Shower Valves

Automatic shut-off in approximately 20 seconds. Suitable for swimming baths, leisure clubs, laboratories etc

Code	Description	Price RRP
AQSNCE	Non-concussive valve - Exposed	€70.00
AQSNCC	Non-concussive valve - Concealed	€95.50

Inline Shower Regulator Coupling - 1/2"

Delivers instant savings to almost any shower installation. Retrofit into existing non-electric showers, Flow balance multiple shower installations. Reduces flow rates to between 6 - 10 Litres/min
Cuts water and energy consumption by up to 60%

Code	Description	Price RRP
AQS506	Inline Shower Regulator Coupling - 6 Litres per minute	€7.75
AQS508	Inline Shower Regulator Coupling - 8 Litres per minute	€7.75
AQS510	Inline Shower Regulator Coupling - 10 Litres per minute	€7.75

Basic Egg Timer Style Shower Timer

As well as restricting the flow of water leaving your shower head, why not also try and monitor the amount of time the shower is left running with one of these funky shower timers!

Code	Description	Price RRP
AQSNCE	Non-concussive valve - Exposed	€4.95

Novelty Digital Shower Timer

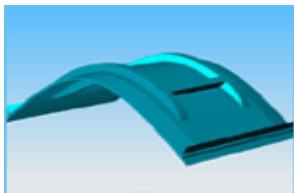

This easy to use, battery-operated shower timer can help you cut down. It is steam proof and waterproof, with a strong suction cup that holds it fast to any non-porous surface, such as bathroom tiles. You decide how long you want to spend in the shower and the timer will sound the alarm when your time is up.

Code	Description	Price RRP
AQS1023	Yellow and orange digital duck timer	€15.95
ASQ1024	All Blue Star digital shower timer	€15.95
AQS1025	Spotty blue star digital shower timer	€15.95
AQS1026	Multi Coloured Spotty star digital timer	€15.95

WC DEVICES

Cistern Dam

The Cistern Dam will save up to 30% of water on every single flush.
Quick and easy to install, No need for maintenance, No stagnant water problems.

Code	Description	Price RRP
AQWCD	Cistern Dam	€5.50
AQWCSAF	Save a flush bag	€3.65

Retrofit Dual Flush Valve

The cost effective, simple way to convert your existing syphon into a dual flush syphon. The retrofit Dual Flush (also known as *EcoBeta*) only takes minutes to install and will instantly save up to 50% water.

Code	Description	Price RRP
AQWCECO	Retrofit <i>EcoBeta</i> Dual Flush Valve	€31.50

Water Saving Dual Flush Valve

Water Saving Dual Flush Valve to replace old fashioned syphon. Complemented with either our side or bottom entry fill valve can give up to **30% Water Saving**. 1.5" outlet, Fits most standard cisterns, Flush button can be fitted in any position, Internal overflow.
Quick and easy to install, Half flush and Full flush volume can be adjusted, 8" - 13" adjustable fill height.

Code	Description	Price RRP
AQWCDFV	Water Saving Dual Flush Valve	€23.95
AQWCBIV	Water Saving Bottom inlet Fill Valve	€15.95
AQWCSIV	Water Saving Side inlet Fill Valve	€15.95

Turbo Syphon

An alternative option to the dual flush valve, this is a syphon. This product features a traditional handle where the user press and releases the lever for a full flush, and press and holds the lever down for a reduced flush. Available in sizes 7" to 10", with 9" being the most common requirement. In order to determine the correct size, the depth of water in the cistern must be obtained.

AQWCT889	Turbo 2-part syphon 9"	€39.95
----------	------------------------	--------

Hippo bag

By simply lowering the bag into the toilet cistern, a minimum of 2 litre of water will be saved with every flush of the toilet.
The Bag simply retains water and reduces the volume of each flush.

Code	Description	Price RRP
AQWCECO	Hippo Bags (Save 2-3litres) from €0.99 to €3 each	€3.00

Flush, Valve & Siphon Kit

Code	Description	Price RRP
AQWCFKIT	Universal parts kit for replacement of flush valves or siphons	€9.55

HYGIENE SOLUTIONS

Vandal resistant soap dispenser - Brushed stainless steel

Brushed Stainless Steel.
Anti-Vandal key operation.
Reservoir inspection window.

Code	Description	Price RRP
AQH70632	Vandal resistant soap dispenser - Brushed stainless steel	€74.50

Quadrasan - Urinal and WC cleaning dispenser - white

The Quadrasan works automatically, ensuring toilets and urinals always stay clean and fresh smelling. The system pumps chemicals directly into the toilet or urinal cistern or can be connected to the sparge pipe.

Code	Description	Price RRP
AQHFDIS1W	Quadrasan - Urinal and WC cleaning dispenser - white	€88.50

Automatic Aerosol dispenser refills - 12 * 243ml aerosols - 1 yr supply (Exotic Garden)

Airoma aerosol refills.

Code	Description	Price RRP
AQHAERO7	Automatic Aerosol dispenser refills - 12 * 243ml aerosols - 1 yr supply (Exotic Garden)	€87.55

Urinal and WC cleaning dispenser refills - 6 * 310ml bottles - 1 yr supply

Quadrasan refills, pleasant fragrance and Biological cleaning options.

Code	Description	Price RRP
AQHFAQ30002	Urinal and WC cleaning dispenser refills - 6 * 310ml bottles - 1 yr supply	€71.65
AQHFB300	Urinal and WC cleaning dispenser refills - 6 * 310ml bottles - 1 yr supply (Biosolve)	€74.85

Airoma - Automatic Aerosol dispenser - white

The Airoma system provides flexible programming options which allows for the matching of costs to odour control.

Code	Description	Price RRP
AQHADIS1W	Airoma - Automatic Aerosol dispenser - white	€66.90

SPARES & ACCESSORIES

6V Latching Solenoid Valve

6V Latching Solenoid Valve to be used with our range of battery powered urinal controllers.
Brass Construction.
WRAS approved.
0 - 16 Bar

Code	Description	Price RRP
AQUHCSV	6V Latching Solenoid Valve	€54.30

230V Mains Solenoid Valve

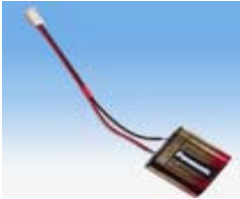

230V Mains Solenoid Valve to be used with our range of mains powered urinal controllers.
Brass Construction. WRAS approved.
0 - 16 Bar

Code	Description	Price RRP
AQUHMSV	230V Mains Solenoid Valve	€55.95

more spares & accessories

6V Lithium Battery

The lithium battery is suitable for use in Hydrocell & Aquamate urinal and Leaklock isolator controls. Generally the battery life will last between 2 and 3 years, at which point a replacement battery can be ordered from us to generate another few years of savings!

Code	Description	Price RRP
AQUHCB	6V Lithium Battery	€17.50

In Line Flow Regulator & Isolation Valve

Isolate and regulate the flow to any water fitting.

Code	Description	Price RRP
AQRIVB6	6L/min In Line Flow Regulator & Isolation valve	€6.95
AQRIVB10	10L/min In Line Flow Regulator & Isolation valve	€6.95

In Line Flow Regulator & Isolation Valve (Cartridge)

Isolate and regulate the flow to any water fitting. Easy isolation and maintenance of the regulator with this cartridge system.

Code	Description	Price RRP
AQRIVC6	6L/min In Line Flow Regulator & Isolation Valve (Cartridge)	€16.75
AQRIVC10	10L/min In Line Flow Regulator & Isolation Valve (Cartridge)	€16.75

Power Gem water conditioner

- Works to descale existing systems, • Reduces new scale formation, • No plumbing required!
- Simple DIY fitting, • No chemicals, • Competitively priced, • No maintenance
- Very low running costs - less than £3 a year, • 3 year guarantee,
- Suitable for copper and plastic pipes.

Code	Description	Price RRP
AQSAPG01	Power Gem water conditioner	€112.30

Thermostatic regulator - external adjustment

This mixing valve delivers safe, blended hot water to taps, showers and other water outlets, making it ideal for use in hospitals, care establishments, schools and leisure centres. Has been independently tested and approved by the TMV3 scheme as a type 3 valve under the requirements of the National Health Service - Model Engineering Specification - DO8. The element that controls the temperature of the mixed water discharging from the valve works proportionally on both hot and cold water supplies in order to maintain the temperature of the mixed water discharged.

Code	Description	Price RRP
AQTTMV1	Thermostatic Mixing Valve	€86.00

leakage prevention

Leaklock

The simplest way to safeguard your home or business against burst pipes. Designed with ease of use in mind, leaklock will become as familiar as locking your front door or turning your lights off at night... Comes complete with: Control Fascia, Mounting Box, 2 x Lithium Battery, 6V Latching Solenoid Valve.

Code	Description	Price RRP
AQLL	Leaklock	€125.45

Basic School Saver Kit - Brown Green Water Box

Beat Rising Water Costs...

Reduce water waste in your school or business by installing these products. This kit contains;
 1 * AQUHC - Hydrocell, 2 * Deodorising Bio Blocks, 2 * AQR54442 - 5L/min Tap Aerators
 4 * AQWCD - Cistern Dam, 4 * AQTPT - Retro-fit Push Taps.

Code	Description	Price RRP
AQMSSK	School Starter Kit	€250.00

Basic Home Saver Kit - Brown Green Water Box

Beat Rising Water Costs...

Reduce water waste in your home by installing these products. This kit contains;
 1 * AQS1101C - 8L/min Aerating Shower Head, 1 * AQR54242 & AQR54442- 5L/min Tap Aerators,
 1 * AQR54246 & AQR54446- 8L/min Tap Aerators, 1 * AQWCD - Cistern Dam

Code	Description	Price RRP
AQMHSK	Basic Home Saver Kit	€39.02

Leak Detection Services

As well as offering a complete water efficiency package, Lowflo also have a specialist Leak Detection Division:

Lowflo - Water Control & Leak Detection

Lowflo offers a new and vital service in the area of water control and leak detection aimed at all water consumers around the country. With our experience and advanced electronic technology we are the countries leading water control and leak detection specialists. we work to pin point accuracy with non-invasive methods in finding all types of leakages, including hidden pipes and hence avoiding unnecessary property damage.

We can monitor your water usage in order to minimise wastage and hence reduce your water bill. So whether your requirements are purely domestic or on a larger scale, Lowflo offers one of the most comprehensive water control and management services in the country.

Call Lowflo on 021 5004111 or 01 218 0111 to speak in further detail to an experienced consultant.

Experienced leakage surveyors, utilising the latest detection methodologies, will detect water leakage on all material types and sizes of underground water pipes.

Various detection techniques are available; Correlation, Sounding, Step Testing, etc. along with the Hydrogen Gas Detection method. It is particularly useful for networks where traditional acoustic techniques cannot normally be used, because of a lack of fittings, or where traditional detection methods have failed to produce results.

We also offer; data logging, water audits, location & mapping of underground services.

Go to www.Lowflo.com
 or call 021 5004111 01 2180111 for more information.
